TO LIVE IN NEW YORK. Mary Elizabeth Lease Will Desert Kansas For the East

New York, Dec. 1.—The Journal says: The strong personality of Mary Elizabeth Lease, betrayed to New York infrequently in the last three years, is to become a part of the life of the metropolis. Mrs Lease has renounced her residence in Kansas and will, hereafter, make her home in this city. She is the apostic of a new political creed, the platform of which is as yet nebulous, and she has announced that she will, in the fiext national campaign, cut a more prominent figure than she did in the last, when she served as a delegate to the Populist convention in St. Louis and made speeches all over the country in favor of the candidacy of William J. New York, Dec. 1.—The Journal says: n favor of the candidacy of William J.

She has been before the American public for years, her prominence dating from about the time that the Populist party became strong in Kansas. But before that she had been somewhat of a power in her own state. As a lecturer there are few women in this country who are her equal, and as a political speaker she betrays a knowledge of current events and legislation, ancient and modern, that confounds her enemics.

Mrs. Lease is a spiritualist. She was converted to that belief in last August and since has made many speeches in advocacy of the faith. She has a husband who keeps a drug store in Wichita, Kan., and minds the Lease children when Mrs. Lease is away from home. It is not known whether he will come to New York or not.

ANTI-PILI cures

To "half-sick folks," old folks and middle-aged folks, afflicted with Constipation, Dyspepsia, Biliousness, Liver and Kidney Troubles:

Do you realize the great importance of selecting a proper remedy for the regulation of your stomach, liver and bowels? Not every remedy that produces a painful diarrhoea is a purgative in the true sense of the term. Many well-known "physics" are positively injurious, because few, if any, of them meet the requirements of a harmless cleansing medicine.

Mineral waters, salts, pills, etc., that cause a painful, watery diarrhoea, are common enough. The market is glutted with intestinal irritants that provoke a temporary "looseness" and then leave the bowels more costive than before they were taken. If you will take the time to investigate this matter you will have no trouble in locating the true cause of so much chronic constipation, biliousness and of your troubles.

stomach trouble. The remedy, ANTI-PILL, contains nothing of a mineral or violent nature and for this reason, if no other, we claim and can prove that it is not injurious to the most delicate constitution. It is as much of a specific in constipation, biliousness, atonic dyspepsia and stomach troubles (especially when affecting ladies, the aged | Take No Substitute!

Mr. Nissley is the patron saint the Valley Falls team.

The distribution of suits took place prior to the dinner at the creamery building. With the assistance of several attendants Mr. Nissley succeeded in dressing each of the 150 boys satisfactorily, and when they marched out of the building on their way to a Kansas avenue restaurant they were a well dressed lot of youngsters.

Mr. Nissley is not working out any theory in his philanthropy towards the newsboys of Topeka. He believes they are a juvenile class that deserve to be believed and he means to make a Thanksgiving banquet a permanent feture.

FOR THE PHILIPPINES. Archbishop Chapelle Leaves New Orleans For Manila.

Orleans For Manila.

New Orleans, Dec. 1.—Archbishop Chapelle, papal delegate to the Philippines, has left for his new field of duty accompanied only by his niece and his private secretary. He will go through to San Francisco via the Southern Pacific with but one stop, at San Antonio. He had not expected to leave for ten days yet, but hastened his departure in respose to a telegram from Father Mc-Kinnon, the chaplain of the First California regiment, which is to sail from San Francisco on the transport Sherman December 5. The chaplain wired that he had arranged for passage on the transport for the archidshop. It is on this vessel that he will sail. The duties which await Archbishop Chapelle in the Philippines are many, the principal insk confronting him being to straighten out the muddle into which the monastic holdings in the islands have failen.

He will make his headquarters in Manila, where he will be furnished with a bodyguard by Gen. Otis, lest some fanatical native, incensed at the frankness with which the papal delegate has denounced the attempt to despoil the church of its property in the Philippiness, should try to assassimate him. His secretary stated this afternoon that the question of protecting the archbishop had been fully discussed. He will not recklessly expose himself, and this bodyguard will be made as large as needful. Before returning to New Orleans the archbishop will visit Rome. From Italy he will go to France and then to Porto Rico. His stay in the Philippines will look after the affairs of this diocese.

By Strike of Upholstery Weavers in Philadelphia.

Philadelphia, Dec. 1.—About 800 unlon upholstery weavers went on strike
today, closing 26 mills and throwing
out of employment nearly 3,000 hands
engaged in various departments of the
factories. The strikers demanded a
working week of 55 hours and ten cents
an hour for overtime and an increased
wage scale. The advance asked is a
general increase of about 25 per cent.
Many of the manufacturers had made
an advance of 15 per cent and when the
new demand was made they refused to
consider it. This city and Paterson, N.
J., are the center of the upholstery
weaving industry in this country and
there are about 1,100 skilled weavers in
Philadelphia. The Oronoco and the
Century mills employing about 700
weavers, have signed the new scale. Philadelphia, Dec. I.-About 800 un-

Governor Stanley. Taylor Riddle, secretary of the state

Taylor Riddle, secretary of the state live stock sanitary commission, has written a penitent letter to Governor Stanley promising to be good and to indulge in no further extravagances at the expense of the state.

The demand for economy made by the governor upon Mr. Riddle was due to the fact that Riddle's expenditures as a member of the state live stock sanitary commission exceeded those of the

The attention of the governor was called to the matter and Riddle was told to economize and to lose no time in putting methods of that character into his business transactions in which he represented the state.

The result has been outlined. Mr. Riddle has promised to do so in consideration of which the governor will not at this time make an effort to get Riddle off the board. This might cause a mean compilication as Riddle was confindle of the board. This might cause a mean complication as Riddle was confirmed by the senate. If the Populist chairman runs another excessive bill up against the state treasury his official head will pay the penalty of violating the governor's instructions.

This is the fourth safe that burglars have either broken into or attempted to during the last two nights. No one was during the last two nights. No one was at the office yesterday and the burglary was not discovered until this morning. It is probably that the safe was forced on Wednesday night by the same gang of safe blowers that robbed Oberly & Granteer's grocery, Page's mill and Brill's grocery.

This morning the man who opens the office unlocked the door and went in. There was nothing to indicate that the safe had been tumpered with and he

doors were shut. The burglars got into the office by breaking the lock on the outside door.

Several years ago the safe was broken into. At that time the combination was broken and has since been useless. The heavy outside doors are fastened only with the bolts, the inside doors being kept locked. When the safe was forced the second time all the thieves had to do was to open the outside door by turning the handle and knock off the light lock on the inside.

Mr. James F. Creman, manager of the Topeka office of the Standard Oil company, said: "We never keep any amount of money in the safe. The thieves got about \$19.35 and left a check for \$20. Since the safe was burglarized several years ago we have locked only the inside doors. It was not at all difficult for the burglars to break open the inside doors after opening the outside doors. Not long ago we were talking of having a new combination put on the safe. A good thing we did not or it would have been rulned."

About a year ago the manager of the office had some money paid in on Saturday afternoon. The banks were closed and the safe easily opened so he hid it in the warehouse. That night it was stolen. This makes the third burglary at that office.

Chief Ramsey said today: "I believe that the gang that has opened these safes in Topeka is the same one that has been operating in western Kansas and the Territory for some time. They have blown several postoffice and store safes and seem to be expert at the business. They have probably left Topeka."

Advent 1899.

Advent 1899.

The first Sunday of the new Christian year in the Apostolic churches occurs on Sunday next. Every great festival in the Episcopal church is ushered in by a period of preparation. Next to Lent with its 40 days of abstinence preparatory for the full realization of the joys of the Easter festival—next in solemnity and special preparation comes Advent with its solemn warning, grave and minor music in hymn and lessons, pointing to the coming festival of the Nativity of Christ, and yet referring very pointedly to His second coming "to judge the living and the dead." The keynote for Advent is "prepare my soul to meet Him," which is the burden of Martin Luther's great hymn for Advent. the burden of hymn for Advent.

SENT TO JAIL

For Selling Oleomargarine For Butter

Philadelphia, Dec. 1.-After a legal battle in the U. S. courts covering a period of over two years Joseph Wilkins of Washington, D. C. and Howard But-ler of this city, were today sent to prison to serve sentences imposed upon ties in pursuance of this determination that Minister Powell has received the representations indicated. It is expected the moral effect of the representations will be sufficient.

One of the results of the accession of Jiminez to the presidency of Santo Domingo, it is believed, will be that the little republic will not push the claim for damages growing out of the Fanita expedition, which it contemplated doing during the Heureaux administration. The Fanita was an alleged fillbustering steamer, which left Mobile, Ala., May 24, 1898, for Santo Domingo.

The republic of Santo Domingo has been financed in Wall street by a syndicate of Americans, known as the Santo Domingo Improvement company, since 1893. One of the leading spirits of the syndicate is Smith M. Weed. This syndicate collects the customs and distributes the revenues.
